THE BEST NATURE HAS TO OFFER

## DIS-Insect

3 Blends Available For:

- **BEDBUGS**
- **LAWN**
- **HOUSEHOLD**

### Lawn Targets

Mosquitos & Ticks

### Household Targets

Ants, Spiders, Fleas & Mites

DIS-Insect is the only all-natural biological solution to eradicate and deter insects, including adult insects, larvae, and eggs. Use in place of toxic pesticides but with a similar application schedule. Available in three unique and targeted blends. The Common Household blend is fogged around baseboards and into floor cabinets, and outdoors around the perimeter of the house, for effective eradication and deterrent for ants, spiders, mites, fleas and more. The Lawn Treatment blend fogged over the grass will keep your yard mosquito and tick free, is safe for pets and bare feet, and can be applied the morning of an afternoon pool party. The Bedbug blend should be fogged INTO mattresses, box springs and under baseboards.
